John D. Rockefeller's immense accumulations, gained through business combinations that collect from every body, has subjected to the wrath and censure of many who are collecting the pennies and holding them with equally covetous inclinations. The only difference, Mr. Rockefeller does his country while the other tell him only his community. John D. Rockefeller is a manipulator whose whole business goes a part of the rich man's wealth and a portion of the poor man's earnings and we believe it is a duty of our government to mark the limits of combinations that monopolize the hurt of the great community. Again, the other fellow, the man who lives in a town, county or community and acts only for the purpose of creating a good bank account, who will collect his earnings to advance personal interest—the man who can no look beyond his own desire to hold every dollar he receives and will not feed the hungry, close the pocket nor administer to the welfare of his community, in our judgment, is of more injury than a Rockefeller, and yet they are found in nearly every town and community. They deserve but little good and when their battles have been fought will leave only their accumulations to beget of ten to unworthy and ungrateful beneficiaries. The country has but few big Rockefellers, but multitudes of little ones far more hurtful.

Large sums of money will be expended by the United States Government next year on public works in Kentucky. The Secretary of the Treasury, in his estimate of appropriations needed for such purposes during the fiscal year ending June 30, 1905, recommends the following for the construction and completion of public buildings. At Henderson, \$25,000; at Mayfield, \$3,000; and for the installation of elevator service at Georgetown, \$7,500. The Secretary's estimate of the Ohio river is exceedingly large. He asks \$2,500,000 for improving the falls at Louisville; for the completion of the dams from Pittsburg down \$2,912,000; for maintaining the channel of the river, \$400,000; for improvements on the Big Sandy river, \$108,000.

Did you know that nearly one-fourth of the entire population of the United States was attending school? That sounds pretty big, but the editor of the Elizabeth town News has compiled the figures of the federal commissioner of education to prove it. In the secondary schools of this country there are 18,080,840 pupils. These figures do not include the college and university enrollment. It does not include the medical and law schools. In the common schools alone there are 18,000,000 children, or one-fifth of the population of the United States. There is no country on the face of the earth which can approximate such state of affairs. There never has been an age in which these figures were approached.

Now that Cleveland can no longer be considered as a probable candidate for the Presidency, we hope the old fisherman will be given a rest. However, Eugene Newman intimated in his Washington letter to the Louisville Post, last week, that if the Democrats would nominate Cleveland he would return to the party. It may be that Newman's suggestion will yet be adopted.

Hon. John R. Proctor, Civil Service Commissioner, died suddenly in Washington, D. C., last Saturday. He was a Kentuckian.

It reads as an illustration of the fact that the last week in October could not be surpassed for artistic beauty and workmanship. It was certainly a great credit to the section of State where The Bee is published. Mr. Paul M. Moore, who is the editor of The Bee, certainly deserves the commendation of his home people for the splendid work-up, and the deep perit in the thought-out Commonwealth for furnishing them with a faultless piece of printing.

The sentiment favoring Mark Hanna's nomination for the Presidency is growing, and it is not at all certain that the next Republican National Convention will choose Mr. Roosevelt. There is not a doubt but the Ohio Senator is the choice of the Republic of the United States, and if he wants to be nominated he only has to say the word.

It was known until a week or two days ago that Dr. Hunter and Mr. Yerkes had not been on speaking terms since the session of the Kentucky Legislature in 1896. Now comes the announcement from Washington that Hunter will support Yerkes for National Committeeman. Hunter does not like Bradley and Bradley does not like Yerkes. See.

Republican National Committeeman Robinson, of North Carolina, was in Washington to attend Hanna's banquet. Upon finding the negro, Layton, present he left the hotel. When asked about his departure he said: "I came here as a gentleman, and I can no look back home as a gentleman." All honor to Robinson.

H. Clay King, who killed lawyer Polson in Memphis some years ago, and who was serving a life sentence in the Nashville penitentiary, died last week, his wife and children being with him in his last hours. King was also a noted lawyer and was the author of several law books. The deceased was a native of Cumberland county, Ky.

We believe in the free and unlimited use of both gold and silver at the ratio of 16 to 1 of all a man possesses and are unalterably opposed to cold storage of greenbacks and national bank notes. It is not the dead, but the living whose power is felt.

Upin Michigan a school teacher pitched a small boy across his room, the effect of the fall causing his death. The teacher was merely arrested. What would have been done in old Kentucky can be imagined.

Mr. McCleary made his first speech in the Senate last Friday in advocating the passage of the Cuban reciprocity treaty. He said it was a step in the direction of civil reform and free trade.

It was estimated that ten thousand people witnessed the inauguration of Gov. Beckham. Republican papers throughout the State, highly complimented his inaugural address.

If natural gas could be utilized for power, in Columbia, we could run an electric light plant and leave out two or three good producers.

Suffering from abscess of the brain, former Appellate Judge Geo. DuBois is lying at the point of death in St. Joseph's Infirmary, Louisville.

We have heard that love lightens labor, but never heard of labor lightening love.

The National Republican Convention will be held at Chicago, June 21.

It is extremely cold in the North West and several persons have frozen to death.

J. H. Stewart, the Louisville lawyer, who has been attending the session of the Afro-American Council, was in Washington last week and called on the President. He was given a hearty welcome.

CHEAP LANDS
 For Homesteaders' and Colonies.

The country along the Cotton Belt Route to Southeast Missouri, Arkansas, Northwest Louisiana and Texas offers the greatest opportunities for homesteaders. Mild climate, good water, cheap building material, abundant use of fuel, and soil that will often in a single season yield enough to pay for the ground. Land can be bought as cheap as \$2.50 an acre, prairie land \$5.00 and 60 per acre up, bottom land \$10.00 and 80 per acre up, improved or partly cleared land at \$10 and \$15 per acre up. Some fine preparations for colonies—trains of 2,000 to 5,000 acres at \$4 to \$10 per acre—being run in this for a good organizer. Fruits and truck lands in the famous peach and tomato belt of East Texas at \$10 to \$20 per acre up. Write us for information about cheap rates, excursion dates, and literature descriptive of this great country and let us help you find a home that will cost you no more than the rent you pay every year.

CONSTITUTIONAL AMENDMENT

The Legislature in conformity with the constitutional amendment adopted at the recent election. The discussion grows out of the fact that such a small per cent voted on this proposition and that the result does not really express the will of the people. Out of the 430,000 votes cast in the election only 60,000 or less than one-seventh of those voting expressed themselves on this question by the ballot and about one-third of these were in the city of Louisville. A very large majority of the non-voters on the amendment labored under the impression that if they did not vote they were counted against it and it is certainly true that of the 375,000 who did not vote on this proposition had they been required to vote would have voted their ballot against it. The measure as adopted by the very small part of those taking part in the election does not express the will of the State and re-submitted to-morrow it would be defeated by ten thousand votes. The News supported the measure, but we regret exceedingly to see the unlawful law of Kentucky changed except by the expressed will of a majority of the voters.—Elizabethtown News.

WHY MARRIAGE WAS A FAILURE.

He regarded his children as a nuisance. He did all his courting before marriage. He never talked over his affairs with his wife. He never had time to go anywhere with his wife. He doled out money to his wife as to a beggar. He looked down upon his wife as an inferior being. He never took time to get acquainted with his family. He thought of his wife only for what she could bring to him. He never dreamed that there were two sides to marriage. He never dreamed that a wife owed praise or compliments. He never had one set of manners for home and another for society. He paid no attention to his personal appearance after marriage. He married as impulsively and headlessly pointed to find that it had flaws. He thought his wife should spend a better time doing housework. He treated his wife as he would have treated his wife to treat another woman. He never dreamed that his wife needed a vacation, recreation or change. He never made concessions to his wife's judgments, even in unimportant matters. He thought the marriage vow had made him his wife's master instead of her partner. He took all the little attentions lavished on him by his wife as his "divine right," and not as his duty.

GROWTH OF PROHIBITION.

For previous years the rapid growth of prohibition, particularly in the south, in Texas the number of its new carriers have multiplied to such an extent that it is now impossible to count them. They are now everywhere and are doing a great deal of good. In Tennessee there are now only a few counties where the sale of liquor is permitted; and should the movement in Texas and Mississippi succeed, it will likely be extended to Tennessee also. In Kentucky, but in the latter with less probability of success. In the Western States the prohibition movement is also very strong and growing in numbers and power. Opposition to supplementary laws has long been a trait of the Democratic party; but unless the movement in Kentucky has made any headway, how can we account for the rapid growth of prohibition in such strong Democratic States as Texas, Mississippi and Tennessee, leaving Kentucky?—Courier-Journal.

The result of the failure of a bridge being built across the Red river in Tennessee one man was killed and three others were seriously injured.

CHEAP LANDS

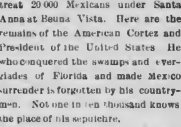

For Homesteaders and Colonies.

The country along the Cotton Belt Route in Southwest Missouri, Arkansas, Northwest Louisiana and Texas offers the greatest opportunities for Homesteaders. Mild climate, good water, cheap building material, abundance of fuel, and soil that will offer to a single season yield enough to pay for the ground. Land can be bought as cheap as \$2.50 an acre, prairie land at \$4 and \$5 per acre up, bottom land at \$6 and \$8 per acre up, improved or partly cleared land at \$10 and \$15 per acre up. Some fine propositions for colonies—tracts of 2,000 to 8,000 acres at \$1 to \$10 per acre—big money in this for a good farmer. Fruit and truck lands in the famous peach and tomato belt of East Texas at \$10 to \$20 per acre up. Write us for information about cheap rates, excursion rates, and literature descriptive of this great country and let us help you find a home that will cost you no more than the rent you pay every year.
